Title: GxP Document Control

PURPOSE

This Standard Operating Procedure (SOP) describes the process for creation, review, approval, distribution, retrieval, revision, retirement, and archival of GxP controlled documents (i.e., SOPs, Work Instructions, Policies, Manuals, Forms, and Templates, etc.) at Netramind.

SCOPE

This SOP applies to all employees and contractors involved in the creation of new and revised controlled documents generated at Netramind.

REFERENCES

- [SOP-002 Good Documentation Practices](#)
- [SOP-004 GxP Records Retention](#)
- [SOP-003 GxP Training Program and Curricula](#)

DEFINITIONS

- 1.1 Administrative Change—Change to a controlled document that does not affect the content or process (ex: grammar, formatting, typographical errors, and organizational name changes).
- 1.2 Change Control — The process of reviewing proposed changes for impact to quality, study participant safety, and regulatory compliance in a documented manner.
- 1.3 Change Request — A formal means to document Change Control.
- 1.4 Controlled Copy—A formal copy of the current version of an approved, controlled document. When changes are needed, the controlled copy is retrieved and replaced with the most updated version. A controlled copy must be systematically tracked, updated, and stored.
- 1.5 Controlled Document— Documents (i.e., Quality Manual, SOPs, Work Instructions [WIs], Forms [FMs], etc.) required by the Quality Management System (QMS) that are controlled throughout the document lifecycle by identification, storage, protection, version control, retrieval, retention, and disposition.
- 1.6 Document Control — The process of controlling documentation throughout its lifecycle; this includes all tracking, review, approval, versioning, and obsolescence (as required) of controlled documents.
- 1.7 Document Number—A unique ID number assigned to controlled documents and their revisions.
- 1.8 Effective Date— The date upon which a controlled document is considered to take effect (i.e., issued). This date is based on the QA approval signature date of each controlled document. QA and author ensure that the team is trained between the approval and effective dates.
- 1.9 GxP—A collection of quality guidelines and regulations for the life sciences industry created to ensure that pharmaceutical drug products are safe, of acceptable quality, meet their intended use, and adhere to quality processes and systems during manufacturing, packaging/labeling, testing, holding and distribution. The term GxP is a general abbreviation for good practice

Title: GxP Document Control

guidelines and regulations which collectively cover good laboratory practices (GLP), good clinical practices (GCP), good pharmacovigilance practices (GPV), good manufacturing practices (GMP) and good distribution practices (GDP).

- 1.10 Form—A type of controlled document used to capture information while performing steps in an SOP or WI. Users cannot edit information fields or formatting in forms.
- 1.11 Master Document List—The list of cross-functional Netramind controlled documents maintained by Document Management.
- 1.12 Metadata – The contextual information required to understand a given data element. Metadata is structured information that describes, explains or otherwise makes it easier to retrieve, use or manage data. For the purpose of this guideline, relevant metadata are those needed to allow the appropriate evaluation of the trial conduct.
- 1.13 Obsolete Document—A document version that has been superseded by a revision.
- 1.14 Periodic Review—Regularly scheduled, documented review of controlled documents, ensuring continued applicability, usability, and compliance with applicable regulatory requirements.
- 1.15 Quality Management System (QMS)—A formalized system that defines and documents processes, procedures, and responsibilities for achieving quality policies, practices and objectives.
- 1.16 Retired Document—A controlled document is removed from the system.
- 1.17 Template—A type of controlled document that defines content structure for a specific document type or deliverable. The use of templates ensures consistency of content and styles while allowing flexibility in format and required information.
- 1.18 Uncontrolled Copy—A copy of a document whose versions are not monitored after distribution. Copies of documents made by users are considered uncontrolled. It is the user's responsibility to ensure that a document is the most current, approved version prior to use.
- 1.19 Version Number—A sequentially assigned number recorded at the end of a Document Number. Version numbers are assigned by Document Management.
- 1.20 Work Instruction (WI)—A type of controlled document that provides more in-depth instructions for how to complete a specific task described in an SOP.

RESPONSIBILITIES

1.21 Document Management or Designee

- 1.21.1 Maintain all controlled documents in the Quality Management System (QMS) in accordance with **SOP-004 GxP Records Retention**.
- 1.21.2 Conduct periodic reviews of controlled documents
- 1.21.3 Notify personnel of new, revised, or retired controlled documents
- 1.21.4 Review **FRM-001-01 Document Change Request (DCR) Form**
- 1.21.5 Maintain the **TMP-001-01 Document Change Request Log**.

Title: GxP Document Control

1.21.6 Manage the archival and retirement of controlled documents

1.22 Functional Area (FA) Manager or Designee

1.22.1 Assign Authors to lead the development of functional specific document(s)

1.22.2 Review and approve functional specific controlled documents

1.22.3 Ensure appropriate justification for controlled document creation, revision, or retirement.

1.23 Author or Designee

1.23.1 Initiate the creation, review, approval, revision, and/or retirement of controlled documents within their FA.

1.23.2 Complete **FRM-001-01 Document Change Request (DCR) Form**

1.23.3 Ensure that controlled documents accurately reflect Netramind business practices and are compliant with applicable regulatory requirements and/or industry standard practices.

1.23.4 Collaborate with Subject Matter Experts (SMEs) to ensure content is current and accurate.

1.23.5 Identify an appropriate training audience (if applicable), develop training materials, designate the Training Methodology, and/or conduct applicable training.

1.24 Quality Assurance (QA) or Designee

1.24.1 Review documents to ensure that all required steps are present and that the document aligns with applicable regulatory requirements, regulatory guidance, and/or industry standard practices.

1.24.2 Review and/or approve final versions of controlled documents.

1.24.3 Collaborate with the Author to determine training requirements.

PROCEDURE

1.25 Generating a New or Revising an Existing Controlled Document

1.25.1 Functional Area (FA) Manager assigns an Author to prepare a new or revised document.

1.25.2 The Author completes **FRM-001-01 Document Change Request (DCR) Form** for new and revised controlled documents and forwards it to Document Management with, if applicable, a request for the most current version of the controlled document(s) to be updated.

1.25.2.1 Document Management reviews the DCR Form and assigns a DCR Number in the following format [DCR-YY-XXX], where:

- YY - denotes the last two (2) digits of the current year

NetraMind

STANDARD OPERATING PROCEDURE	
Document Number:	SOP-001
Effective Date:	01-MAY-2026
Version Number:	01
Page:	4 of 16

Title: GxP Document Control

- XXX – denotes a three-digit sequential tracking number beginning with 001. This number resets each year to begin with 001.
- Ex: DCR-23-001 is assigned to the first document change request in 2023.
- NOTE: If an electronic Document Management system is used, it may automatically assign the DCR number. Refer to the applicable SOP or work instruction (WI) which governs system use.

1.25.2.2 Document Management captures change request information in the **TMP-001-01 Document Change Request (DCR) Log**.

1.25.2.3 Document Management forwards an editable copy of the controlled document(s), as applicable.

1.25.3 Document Management maintains the DCR Log that contains the following minimum information:

- DCR Number
- Document Number (ex: SOP number, WI number, Form number, etc.)
- Document Title
- Current Document Version Number
- Revision Version Number (subsequent number after revision)
- Document Type (Attachment A)
- Initiator
- Document Action (i.e., new, retire, review)
- Status (i.e., complete, ongoing, on hold)
- Effective Date
- Retirement Date
- List of Documents Affected by Changes
- Comments

Note: This can be maintained in an electronic Document Management System, if utilized.

1.25.4 The Author collaborates with Subject Matter Experts (SMEs) to develop or revise the document.

1.25.4.1 Document Management assigns a number to the New controlled document according to Attachment A of this SOP

1.25.4.2 The Author and QA identify reviewers and approvers according to Attachment B of this SOP.

1.25.4.3 The Author uses the **Style Guide (Attachment C)** of this SOP.

1.25.4.4 The Author incorporates comments from reviewers in a timely manner.

1.25.5 The Author circulates the clean, updated version to QA for review.

1.25.5.1 QA forwards any feedback to the Author.

Netramind

STANDARD OPERATING PROCEDURE	
Document Number:	SOP-001
Effective Date:	01-MAY-2026
Version Number:	01
Page:	5 of 16

Title: GxP Document Control

1.25.5.2 The Author incorporates feedback and sends it back to QA until all content can be finalized.

1.25.6 The Author signs and dates the completed/updated controlled document and **FRM-001-01 Document Change Request (DCR) Form** and circulates it to the Reviewer and Approver for their signatures.

1.25.7 When all signatures have been obtained, the Author sends the peer-reviewed controlled document and **FRM-001-01 Document Change Request (DCR) Form** to Document Management.

1.25.7.1 When a new version of a controlled document has been approved, Document Management marks the previous version "Obsolete."

1.25.8 QA collaborates with Document Management to assign an Effective Date. Effective Date is assigned following approval and completion of required training.

1.25.9 If administrative changes (ex: grammatical or typographical errors) are identified after the document becomes effective, these may be noted in the DCR Log and addressed during the next revision.

1.26 Controlled Document Notification

1.26.1 QA uploads a PDF and/or controlled/protected version of the newly approved or revised, effective document to the appropriate Shared Drive folder or the Electronic Document Management System, as applicable, and removes the PDF and/or controlled/protected version of the retired or obsoleted document from circulation.

1.26.2 Document Management notifies Netramind personnel of new, revised, and retired controlled documents, including the following information:

- Document Title, Number, and revised Version Number
- FA that owns the document
- Effective or Retirement Date
- Type of Change (Technical, Administrative, or Periodic Review)
- Training Required and Completion date

1.26.3 Netramind employees must complete training within the assigned training period and ensure that all training documentation is forwarded to Document Management. Refer to **SOP-003 GxP Training Program and Curricula**.

1.27 Periodic Review

1.27.1 Document Management maintains the **TMP-001-01 Master List of Controlled Documents** and the periodic review schedule, according to the below:

Document Type	Description	Review Schedule
---------------	-------------	-----------------

Netramind

STANDARD OPERATING PROCEDURE	
Document Number:	SOP-001
Effective Date:	01-MAY-2026
Version Number:	01
Page:	6 of 16

Title: GxP Document Control

• QMs • MANs • POLs	• Quality Manuals • Manuals • Policies	Every three (3) years
• SOPs • FRMs • TMPs • WIs	• Standard Operating Procedures • Forms • Templates • Work Instructions	Every two (2) years

1.27.2 Document Management regularly reviews the Master List of Controlled Documents and identifies those eligible for periodic review within the next 12 months.

1.27.2.1 When an eligible document is identified, Document Management notifies the relevant FA Manager approximately 90 calendar days prior to the periodic review start date.

1.27.2.2 The Author contacts the FA Manager and QA to coordinate the type of action required (i.e., no change, revision, retirement) within 30 business days; all correspondence is documented in the QMS.

1.27.2.3 If no changes are required, Document Management assigns the next scheduled review date according to the table above and records it on the DCR Log.

a. The Version and Document Number remain the same. The Author, Reviewer, and QA document the decision.

1.27.2.4 If changes are required, perform steps in Section 6.1 of this SOP.

1.27.3 FA Manager monitors Authors to ensure that periodic reviews are conducted in a timely manner.

1.27.3.1 If there are significant delays or no acknowledgment from the FA Manager, QA and/or Document Management escalate the issue to Netramind Senior Management.

1.28 Handling of Controlled Document Copies

1.28.1 Printed copies are considered uncontrolled unless specifically designated.

1.28.2 When printed copies of controlled documents are to be shared with third party consultants, external auditors, or during Regulatory Health Authority Inspections, they are marked, "Uncontrolled Copy" and tracked by Document Management. Uncontrolled copies may not be retrieved after use.

1.28.3 Use of ink stamps or electronic watermarks is acceptable to mark both Controlled and Uncontrolled Copies.

Title: GxP Document Control

1.29 Document Retirement

- 1.29.1 The Author, Document Management, and QA complete Section 6.1.1 through Section 6.1.2.2 of this SOP.
- 1.29.2 The Author and Document Management verify that the controlled document is not currently in use by any FA.
- 1.29.3 The responsible FA Manager and QA approve the retirement of the controlled document and assigns an Effective Retirement date.
- 1.29.4 Document Management and captures the Retirement Date on the DCR Log.
- 1.29.5 If a controlled document is maintained as a hard copy, Document Management stamps each page, "Retired" and signs and dates the first page as acknowledgement of its new status.
- 1.29.6 If a controlled document is maintained in an electronic document management system, Document Management follows applicable steps for removing the document from all accessible files.
- 1.29.7 Document Management notifies affected personnel that the document is retired. All retired controlled documents are maintained in the Document Management System and archived according to **SOP-004 GxP Records Retention**.

1.30 Controlled Document Repository

- 1.30.1 Controlled documents are maintained electronically in a secure repository with role-based access control.
- 1.30.2 A new version of the Master List of Controlled Documents is created each year and documents the following minimum information:
 - Document Type
 - Document Number
 - Document Title
 - Version Number
 - Effective Date
 - Last Review Date
 - Scheduled Review Date
- 1.30.3 GxP controlled documents are maintained in the Document Management System and archived according to **SOP-004 GxP Records Retention**.

ATTACHMENT C: STYLE GUIDE FOR CONTROLLED DOCUMENTS

When writing documents, use the following as a style guide:

- Paper size: May be either A4 or US Letter 8.5"x11"
- Font Type: Times New Roman, Calibri (or similar font type)
- Font Size: 11pt
- Date format: Refer to **SOP-002 Good Documentation Practices**
- Numbering:
 - Main sections 1., 2., 3. etc.
 - Sub-sections 1.1., 1.2., 1.3., etc.
 - Sub-sub-sections 1.1.1., 1.1.2., 1.1.3., etc.
 - Bullet points may be used for further subsections and/or a list that does not have to be performed in a sequential order
- Header: Approved [Sponsor] Logo, Document Type, Document Number, Effective Date, Version Number, "Page _ of _" (optional), and the Document Title.
- Footer: Confidentiality Statement and "Page _ of _"
- Signature Page: Names, Functional Areas (FAs), Signatures, and Dates of the Author, Reviewer, and Approver
