Title: Computer System GxP Assessment Form

SYSTEM NAME:		VERSION/ RELEASE DATE:	
SYSTEM OWNER:		DEPARTMENT:	
SYSTEM PURPOSE/ USE:			

	QUESTION	CRITERIA	YES/NO
1	Does the computerized system (CS) produce data used to evaluate, accept, or reject raw materials, drugs, or drug products?	• Answer "Yes" when the data is directly used to make "accept" or "reject" decisions (ex: laboratory test result values, In-Process controls, etc.) • Answer "No" otherwise	
2	Is this CS considered a Data Acquisition Tool (DAT) or Patient Reported Outcomes (PRO) for a clinical trial?	• "Yes" if data is generated or derived for a trial participant • "Yes" if data is entered directly, and/or if data is collected directly from trial participants, i.e., wearable devices, ePRO	
3	Could the use of the CS directly or indirectly affect any of the following:	• Quality or efficacy of Investigational Product (IP) • Measurements or data concerning the quality, safety, or efficacy of IP • The safety of a consumer/ clinical trial subject using the IP	
4	Could use of the CS, if not properly controlled, result in the mistreatment of trial participants?	• Answer "Yes" when the data has direct impact on prescription, labelling, treatment decisions, etc. • Answer "No" otherwise	
5	Is the CS used to monitor, control, or supervise warehousing/ distribution of raw materials, drugs, or drug products?	• Answer "Yes" when the CS is used for inventory management, receipt and allocation of materials, sales information (ex: lot location details, customer order and sales records), etc. • Answer "No" otherwise

Title: Computer System GxP Assessment Form

	QUESTION	CRITERIA	YES/NO
6	Is the CS a process control system that may control or manipulate the manufacturing process, sampling, packaging in such a way to affect product quality safety?	• Answer "Yes" if the CS is used to control manufacturing process parameters or conditions (ex: manufacturing instructions, warehouse conditions, quality control, etc.). • Answer "No" otherwise	
7	Does the CS control/ administer access rights for GxP systems?	• Answer "Yes" if the system controls user profiles for GxP systems • Answer "No" if otherwise	
8	Does the CS generate, modify, maintain, archive, retrieve, transmit, or submit data regulated by global regulatory agencies?	• Answer "Yes" if the CS is used • Answer "No" if otherwise	
9	Is the CS used to enter, change, release, or transmit GxP critical data?	• Answer "Yes" if GxP reports, lists, are created/ modified by the system • Answer "No" if otherwise	
10	Does the CS generate data output required for a GxP critical process with respect to control of information?	• Answer "Yes" if the system generates output such as lists, printout mail, etc. required for batch reconciliation, batch classification characteristics, etc. • Answer "No" if otherwise

Title: Computer System GxP Assessment Form

GxP RELEVANT / NON-RELEVANT VERIFICATION
MARK GxP RELEVANT IF ONE OR MORE ANSWERS ABOVE IS "YES"
The system is deemed to be:
☐ GxP Relevant ☐ GxP Non-Relevant
